DETAILED ACTION

Reissue Applications

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The reissue oath/declaration filed with this application fails to comply with 37 CFR 1.63(a)(2) because it does not correctly identify the specification to which it is directed. On line 3 of the first paragraph of the declaration (filed December 20, 2001), the patent number should read "5,350,131" rather than "5,550,131".

Claims 1-6 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claims 1-6 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. In claim 1, line 26, the recitation "closer to" is broader than the original patent claim because it reads on subject matter that the patent claim previously did not read on. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.
